

New York State Energy Research and Development Authority (NYSERDA)
Solar Photovoltaic (PV) Incentive Program Completed Projects by City and Contractor
Data Dictionary

Data Label	Data Type	Data Description
Project Install Year	Text	Year solar photovoltaic project was installed
Contractor	Text	Name of contractor contracted to install the solar photovoltaic system. Data is not displayed by individual project. An aggregation rule of 3 PV project completions or greater was applied to the dataset at the city and contractor levels. Cities and contractors that do not meet the annual 3 PV project aggregation rule are listed as "Other."
County	Text	Name of New York State county for the project locations
City	Numeric	Name of New York State city for the project locations. Data is not displayed by individual project. An aggregation rule of 3 PV project completions or greater was applied to the dataset at the city and contractor levels. Cities and contractors that do not meet the annual 3 PV project aggregation rule are listed as "Other."
Project Count by City	Numeric	Sum of projects installed in a year by a contractor in a given New York State city
Project Cost	Currency	The sum of the project cost in US dollars (USD)
\$Incentive	Currency	The sum of the NYSERDA project incentives in US dollars (USD)
Total Nameplate KW	Numeric	The sum of kilowatt (KW) capacity ratings of the installed photovoltaic equipment
Expected KWh Annual Production	Numeric	The sum of the expected annual electricity production as a result of the projects
Solicitation	Text	The NYSERDA solar photovoltaic incentive program solicitation the project was completed under
